

Coop on the beat I tell em-

You wanna know what this like
Take a hint and stab me with a knife
Now tell yourself you alright
Stay up for a thousand nights (and then)
Anything is in sight
Make sure your bros get a slice (slice)
You wanna know what this like
Take a hint and stab me with a knife
Now tell yourself you alright
Stay up for a thousand nights (and then)
Anything is in sight
Make sure your bros get a slice (slice)

Bossman gotta take a sick day
Bossman gotta take a sick day (yeah)
Too broke, can't afford a mistake
Too broke, can't afford a mistake (yeah)
Walking around like which way
Walking around like which way (yeah)
Working so hard I forgot it was my Birthday (yeah)
I was wondering why you called about the back
I was wondering why you called about the back
I thought somebody else got whacked
I thought somebody else got taxed
It's to the point all I see is black
It's to the point where I might smoke a black
I don't even cry no more
And when I break down I just say slatt

You wanna know what this like
Take a hint and stab me with a knife
Now tell yourself you alright
Stay up for a thousand nights (and then)
Anything is in sight
Make sure your bros get a slice (slice)
You wanna know what this like
Take a hint and stab me with a knife
Now tell yourself you alright
Stay up for a thousand nights (and then)
Anything is in sight
Make sure your bros get a slice (slice)
