

Buried Alive

Tegan and Sara

She said she'd live her life more wisely
And so I let her wake up beside me
He says he'd give up almost anything
If I let him live his life next to me
I'm not hungry, babe... I am starving
And not for you for money,
Money,
Money
I'm the type of girl
When you fall in love
You fall forever
So I count my fingers
I count my toes
I remember this
I remember those
I remember every magic moment
'Cuz when I'm gone
You're gonna be alone alone alone
And all this time
He was hoping for a poet
He stands up right next to me
He starts singing
You forget that girly-man baby
You come with me
You forget that girly-man baby
You come with me
So I'm counting backwards
In my bed I start feeling
Like I'm buried alive
I'm buried alive
Right next to me
She said she'd live her life more wisely
So I let her wake up beside me
He said, Baby, I would do anything
Just live your life next to me
But I'm not hungry, baby I'm starving
An not for you for money,
money
money
I'm the type of girl
When you fall in love
You fall forever
And so I count my fingers
I count my toes
I remember this
I remember those
I remember every magic moment
'Cuz when I'm gone
You're gonna be alone alone alone
And all this time
I was hoping for a poet
He stands up right next to me
He starts singin'
You forget that girly man
Baby you come with me
Yeah you forget that girly man
Baby you come with me

So I'm counting backwards
In my bed
I start feeling
Like I'm buried alive
I'm buried alive
Right next to me
