

# Hell

Tegan and Sara

No, I'm not ready for a big bad step in their direction  
No, I'm not ready for downtown trash and void collection  
Four blocks, run and hide  
Don't walk alone at night  
Cityscapes, cities change before they die  
Four blocks, I should mention in a song  
If I wanted, get along and change you  
Who doesn't wanna change this?

I know you feel it too  
These words get overused  
When we get up and over it and over them  
Up and over it and over them  
I know you feel it too  
It all seems so untrue  
When you get up and over it and over them  
Oh oh, oh no, oh oh, oh no

No, we're not ready for fair distribution  
Just a terminal solution for  
No, we're not ready for hell  
Hell no, for hell, hell no  
Four days wide awake,  
Why slide along and say  
Girls afraid, girl will change, just move away  
Four days that I mention in a song  
Move along, get ahead, get a hand and bring her with you

I know you feel it too  
These words get overused  
When we get up and over it and over them  
Up and over it and over them  
I know you feel it too  
It all seems so untrue  
When you get up and over it and over them  
Oh oh, oh no, oh oh, oh no

Four ways to remove all the bad that we do  
From the heart and the soul of the city, sad and cold  
Four ways to collect what we say and what we save  
To discard and discover a brand new way

I know you feel it too  
These words get overused  
When we get up and over it and over them  
Up and over it and over them  
I know you feel it too  
It all seems so untrue  
When you get up and over it and over them  
Up and over it and over them

I know you feel it too  
These words get overused  
When we get up and over it and over them  
Up and over it and over them  
I know you feel it too  
It all seems so untrue

When you get up and over it and over them  
Oh oh, oh no, oh oh, oh no  
Oh oh, oh no, oh oh, oh no
