Tegan and Sara

My windows look into your living room I spend the afternoon on top of you I wonder what it is
That I did to make you move in

Across away from me
I hope I never figure out
Who broke your heart
And if I do, if I do

I'd spend all night losing sleep
I'd spend the night and I lose my mind
Well I'd spend the night and I'd lose my mind
My windows look into your bathroom

Well I spend the evening watching You get yourself clean I wonder why it is That they left this bathroom so unclean

So unlike me
I hope I never figure out
Who broke your heart
And if I do, if I do

I'd spend all night losing sleep
I'd spend the night and I lose my mind
I'd spend the night and I lose my mind
I'd spend all night losing sleep

I'd spend the night and I lose my mind
If I spend the night then I lose my mind
Well I hope I never figure out who broke your
Heart

Well I'd spend all night losing sleep I'd spend the night and I lose my mind If I spend the night then I lose my mind Spend all night losing sleep

I'd spend the night and I lose my mind If I spend the night then I lose my mind Spend all night losing sleep I'd spend the night and I lose my mind If I spend the night then I lose my mind
