We Don't Have Fun When We're Together Anymore

Tegan and Sara

Promised myself I wouldn't let you get that way this time Promised myself I wouldn't let you lose yourself this time What you gonna do tomorrow when you wake up in Someone else's bed? What you gonna do tomorrow when you wake up in Someone else's head?

We don't have fun when we're together anymore All we get when we're together is bored We don't have fun when we're together anymore All we get when we're together All we get when we're together

Watch my head, falls in your hands
I wonder where have I been all this time?
Watch my thoughts fall in your dreams
I wonder where have you been all this time?
Have another drink, it'll make you cool
It'll make you you
Have another drink, it'll make you cool
It'll make you you (You, you, you, you)

We don't have fun when we're together anymore All we get when we're together is bored We don't have fun when we're together anymore All we get when we're together All we get when we're together

Another day, another waste Close my eyes and fall behind Another day, another waste Close my eyes and fall behind

We don't have fun when we're together anymore All we get when we're together Another day, another waste Close my eyes and fall behind Another day, another waste Close my eyes and fall behind

Close my eyes and fall behind Close my eyes and fall behind
