Addict

Tei Shi

Tell me about it
There's no way around it
Call me an addict
I'm back at it
I call you romantic
You call me dramatic
I can't live without it
Calm down it's
A lovely day
I'm on my way
To a place so far away but I see it so near
Keep thinking about
When you say to me
Love is not a temporary thing to me
I've been wondering too

Just want another shot with you
Gotta find something that can get me through
Don't leave me empty-handed
Don't let me down
Come spend another night with me
We can keep running from reality
Don't leave my empty-handed
I know you understand it

The wind in my hair now
I'm so aware now
And I thank God I found it
I look out it's
A lovely day
I'm on my way
To a place so far away now
I see it so clear
Still thinking about
When you say to me
Love is not a temporary thing to me
I've been looking for proof

Just want another shot with you
Gotta find something that can get me through
Don't leave me empty-handed
Don't let me down
Come spend another night with me
We can keep running from reality
Don't leave my empty-handed
I know you understand it

(When will all the voices in my head
Start giving me direction too
Oooo
Stepping in and out of my frame
And I can't see clearly)

Just want another shot with you
Gotta find something that can get me through
Don't leave me empty-handed
Don't let me down

Come spend another night with me
We can keep running from reality
Don't leave my empty-handed
I know you understand it
