

# Crawl

Tei Shi

I don't mind it if you're mean to everybody, but me  
In fact, I'd rather be hated together than loved apart  
'Cause if they had a heart, they'd see that you're just hurt all sad and twisted inside

I don't compromise anything  
Waste time on shiny things  
If you know what you seek  
Put your legs into it

'Cause, baby, you crawl  
Then you walk, then you run the show  
Build it up just to watch it fall  
What you wanna feel when you hit the floor? (The floor)  
Let you talk like you run the show  
Build you up just to watch you fall  
What you wanna feel when you hit the floor? (The floor)

Don't mind it if you're mean to everybody, but me  
In fact, I'd rather be hated together than loved apart  
'Cause if they had a heart, they'd see that you're just hurt all sad and twisted inside

Don't think about who I'm gonna be  
When I hit the floor and you're left with me  
Worry about what you're gonna do  
When you hit the floor and you're left with you

I don't compromise anything  
Waste time on shiny things  
If you know what you seek

Put your legs into it

'Cause, baby, you crawl  
Then you walk, then you run the show  
Build it up just to watch it fall  
What you wanna feel when you hit the floor? (The floor)  
Let you talk like you run the show  
Build you up just to watch you fall  
What you wanna feel when you hit the floor? (The floor)

Don't compromise anything  
Waste time on shiny things  
If you know what you seek  
Put your legs into it

'Cause, baby, you crawl  
Then you walk, then you run the show  
Build it up just to watch it fall  
What you wanna feel when you hit the floor? (Oh)  
Let you talk like you run the show  
Build you up just to watch you fall  
What you wanna feel when you hit the floor? (The floor)

'Cause, baby, you crawl  
Then you walk, then you run the show

Build it up just to watch it fall  
What you wanna feel when you hit the floor? (Oh, oh)  
Let you talk like you run the show  
Build you up just to watch you fall  
What you wanna feel when you hit the floor? (The floor)
