

Drop Dead

Tei Shi

Off the record I know you can't stand me
I find it cute I find it kinda funny
You're mad, unhinged
Because your boyfriend likes me
What's his name again?
What's his name again?

Most people have no imagination
You're just a follower looking for your cult
Giving in to t-t-temptation
And you might fall over

Because I'm drop dead gorgeous
I think you might
I think you might drop dead
Drop dead gorgeous
I think you might
I think you might drop dead
Drop dead

You're like a moth to a flame to me
You wanna sell that quality
And I'm an animal let out of its cage
I'm your fav's fav's fav's fav

All you wanted was a superbowl ring
You're a predator looking for your cut
On and on your words are super boring
And you can drop dead

Because I'm drop dead gorgeous
I think you might
I think you might drop dead
Drop dead gorgeous
I think you might
I think you might drop dead
Drop dead

Most people have no imagination
You're just a follower looking for your cult
Giving in to t-t-temptation
And you might fall over

Because I'm drop dead gorgeous
I think you might
I think you might drop dead
Drop dead gorgeous
I think you might
I think you might drop dead
Drop dead
