

If I didn't say it  
You might think I'm the silent type  
Although forgiveness is in my nature  
You've been crossing the line  
You've been taking what's mine

Well, we had it then, but now it's over  
Take a look around  
Don't let me catch you coming over for a second chance

You think you know but you don't, but you don't  
Look you got your grip around me and you're not letting go  
Think you got me in the palm of your hand  
What don't you understand, I need that money

'Cause you don't own me  
Thought this shit was free and you got me cheap (Need that money)  
But it gets ugly  
When you don't play clean  
Gotta get you off me, off me, off me  
Gonna make them love me, love me, love me

Pity one of these mornings (One of these mornings)  
Ooh, don't be surprised to find yourself alone (Don't be surprised, don't)  
When all of these voices are louder than ever  
And they know what you've done (Know what you've done)

Yeah, we had it then, but now it's over (Now it's over)  
Take your things and go  
Don't let me catch you coming over for another show

You think you know but you don't, but you don't  
Look you got your grip around me and you're not letting go (Letting go)  
Think you got me in the palm of your hand  
What don't you understand, I need that money

'Cause you don't own me  
Thought this shit was free and you got me cheap (Need that money)  
But it gets ugly  
When you don't play clean  
Gotta get you off me, off me, off me  
Gonna make them love me, love me, love me (Need that money)

'Cause you don't own me  
Thought this shit was free and you got me cheap (Need that money)  
But it gets ugly
