

Can you save me from the silence?
Take my hand in your hand and dim the lights
Look me right into my iris
Say you love me for the very first time tonight

I don't care anymore
Nothing is what it was before
I know that you're the real thing, baby
I don't care anymore
Nothing's what it was before
I know that you're the real thing, baby

Can you save me from the silence?
Take my hand in your hand and dim the light
Look me right into my iris
Say you love me for the very first time tonight

I don't care, don't care, I don't care anymore
Say you love me for the very first time tonight
I don't care, I don't care, I don't care anymore
Say you love me for the very first time tonight

I can tell that you're excited
And you never had a moment like this before
Put your pride aside and
Say you love me for the very first time tonight

I don't care anymore
Nothing's what it was before
I know that you're the real thing, baby
I don't care anymore
Nothing's what it was before
I know that you're the real thing, baby

I don't care, I don't care, I don't care anymore
Say you love me for the very first time tonight
I don't care, I don't care, I don't care anymore
Say you love me for the very first time tonight

Can I show you what I mean?
I'll hold onto you if you hold onto me, yeah
We're in the right place
You might disagree, but
I don't care, I don't care, I don't care anymore
I don't care, I don't care, I don't care anymore

I don't care, I don't care, I don't care anymore
Say you love me for the very first time tonight
I don't care, I don't care, I don't care anymore
Say you love me for the very first time tonight

I'll hold onto you if you hold onto me, yeah
