

Lift Me

Tei Shi

It leaves me empty when I'm lookin' inside myself
All the questions I would rather ask someone else
What if I don't know, what if I don't know
How to be my friend, how to be my friend?

Lift me up from this place
Lift me up from this place
(Lift me) Ahhh
(Lift me, lift me)

Yeah, you're so f*ckin' real
Well, all your honesty's just a brand
It makes me feel so anxious
I have to sit on my own two hands
What if I don't want, oh, what if I don't want
To pretend to live my life
(Ahhh)

Lift me up from this place
Lift me up from this place
(Lift me) Ahhh
This place (Lift me)

Teach me something I don't have to

Swallow whole and imitate and
Someone who can make me forget
Everything I've ever done
Teach me something I don't have to
Swallow whole and imitate and
Someone who can make me forget
Everything I've ever done

(Lift me)
(Lift me)
(Me, me, me)
(Me, me)

Teach me something I don't have to
Swallow whole and imitate and
Someone who can make me forget
Everything I've ever done
Teach me something I don't have to
Swallow whole and imitate and
Someone who can make me forget
Everything I've ever done
Someone who can make me forget
Everything I've ever done
