

## Freight Train

Teitur

I was born my parents sun  
From my first breath I was the one  
Expected to hang on the moon

I learned to walk in my fathers shoes  
I loved my mother like good boys do  
I never rolled ...a freight train

I Scot the wind and gold for my home teen  
I made and meet the great university  
I home might hang on the poem om wall

I signed on to be a company man  
It was all part of the master plan  
I never rolled a freight train  
I never saw the stars on Hollywood and vine

I never kissed the wrong girl  
I never got drunk in spain  
No I never rolled a freight train

I fell in love with a debutant  
I gave her a ring in a restaurant  
I bought us a home in the right part of town

We had a sun he looked up to me  
I said I love you but promise me you'll never say  
I never rolled a freight train  
I never saw the start on hollywood and vine

I never kissed the wrong girl at the right time  
I never got high in Spain  
No i never rolled i never rolled  
A freight train.
