

Let's Go Dancing

Teitur

Our minds run in circles
Racing 'round the restaurant
Searching for what more to say
To say what we really want

Let's leave like it is
Stop staring at these walls
Let's not go headlong to that distance
Where you can't come back at all

[Chorus]

Let's go dancing
Waltz around the rumor mill
In your faded dress with the daffodils
Let's go dancing
Let time stand still

Once your name was but a whisper
A simple wish upon my tongue
Staring at your shadow
Was like staring at the sun

In this dark, dark hour
You still illuminate a room
Oh God give us the power
Gotta keep ourselves in tune
