

Start Again

Teitur

I am a million questions in
The what ifs, the maybes and the might have beens
Life has a way of making you stop
Till you know who you are and who you are not

I am a million questions in
Where do you end and I begin?
God knows there is a silence between us
That love should always end with forgiveness
Forgiveness

Every day we leave it all behind and start again
Without regrets forget our hearts have ever been broken
Those sorrows the eyes can't see, they get too hard to carry
So every day we leave it all behind and start again

How about we take a clean slate
Wipe out the hurt before it's too late
What if we lay here and didn't speak
Held each other till we fell asleep

Every day we leave it all behind and start again
Without regrets forget our hearts have ever been broken
Those sorrows the eyes can't see, they get too hard to carry
So every day we leave it all behind and start again

For all the sorrys never said
For all the stories living in my head
When yesterday is all you know
How we gonna live for tomorrow?

Every day we leave it all behind and start again
Without regrets forget our hearts have ever been broken
Those sorrows the eyes can't see, they get too hard to carry
So every day we leave it all behind and start again
