

Waverly Place

Teitur

Last time we met
It looked like a long lost friend
Last time we met
We were younger then

I don't live on Waverly
I don't wonder if you think of me
Here we are
Look how far we've come
And gone
I feel I know you better
I know you better

Last time we met
You were in love with New York City
Last time we met
I was poor and you were pretty

I don't ride the AC
I don't see your face in crowded streets
Here we are
Look how far we've come
And gone
I feel I know you better
I know you better

It's been far too long
Far too long

Last time we met
I had you in my heart
Let's not forget to be young again

I don't live on Waverly
I don't wonder if you think of me
Here we are
Look how far we've come
And gone
I feel I know you better
I know you better
