Tekno

See me, I like the kind of vibe that's for the fun  
You made me feel like something new under the sun  
For this movie, people dey die for love including actor  
Who said actor no dey die for film dey yarn dust  
Hotty hotty tatashe, you're spicy  
This music and your love got me working night shifts  
Like, jupa to the right and jupa to the left side  
I can feel a voice in my head calling for your loving  
Wanting for your touching, Oh ouu oh. Oh ouu oh  
I can feel a voice in my head calling for your loving (Mmm)  
Wanting for your touching, Oh ouu oh. Oh ouu oh

With the way wey things dey go  
Everybody should know  
We are officially love birds and then we go  
To Paris on vacation
