

# Freetown

Tekno

Mad o

What go' up must come down  
When I dey vex, I dey calm down

Sierra Leone is a Freetown  
But, the people no dey see chaw

So, me go down to Lagos City

Giant of Africa wey no get constant electricity  
Say me, go in the street too many people I dey pity  
Three years old for road, them dey beg money  
Highway no be for small pikin

For how long we go pray make e better?  
How many times we go pray make e better?  
Since mama born me, my people dey pray, say make e better  
Offering and tithe, everyday them dey pay, say make e better

Talk-talk, talk my own to my melody  
Me no care if no one care for me  
Who I fit help, I go give money  
Na the kind thing wey dey ginger me  
And me no fit help everybody  
But anywhere I go they want to hail me  
Some dey wey dey argue, who get money?  
But no better hospital wey dey for street

Instablog na him television  
Them no fit post our politician  
Election na selection  
All man get him position

What go' up must come down (what go up)  
When I dey vex, I dey calm down

Sierra Leone is a Freetown (Freetown, Freetown)  
But the people no dey see chaw

So, me go down to Lagos City  
Giant of Africa wey no get constant electricity  
Say me go in the street too many people I dey pity  
Three years old for road, dem dey beg money  
Highway no be for small pikin

For how long we go pray make e better?  
How many times we go pray make e better?  
Since mama born me, my people dey pray, say make e better  
Offering and tithe, everyday them dey pay, say make e better  
(Say make e, say make e better)

Tell me, where I wan begin?  
Hunger wan kill person pikin  
John Baptist 1919, still be like this in 2020

Don't know, how we still dey go like this?

Tell me, how the road bad like this o?  
Fuel scarcity for country wey get everything e need to take- very fucking

What go' up must come down  
Food no dey  
Light no dey  
Water no dey  
Work e no pay  
How my people go dey?  
How una dey?

(Kulture on the mix)  
(Xtofa, the beat chef)
