

Calling All Doctors

Telekinesis

Calling all doctors, quick come see
Something very wrong with little old me
Twitching, twitching
My heart is twitching, twitching

Get your stethoscopes and please, quick please
Listen to my heart
Oh, listen to it beat
Twitching, twitching
My heart is twitching, twitching

Get your medicine, Colleen
Replace my heart with a machine

Distance truly truly makes the heart grow weak
Mine is getting frailer as we speak
Twitching, twitching
My heart is twitching, twitching

Deep in the caverns of my soul
This is were I hold on and memories grow
Twitching, twitching
My heart is twitching, twitching

I know this is gonna work out
I know this is gonna work out

I know this is gonna work out
I know this is gonna work out

Get your medicine, Colleen
Replace my heart with a machine
And get your medicine, Colleen
Replace my heart with a machine
