

Haunted

Telenova

(One, two, three, four)

Draw me in with your incantation
Am I a sinner or saint?
Find my love in the darkness
Till the shadows take your place
Sell my soul for a glimpse of beauty
I feel it bloom in my arms
But now the fantasy withers slowly
Losing all its charm

Oh, fated
I keep giving you up until I feel it crawling under my skin
I'm haunted by you lately
Oh, it's never enough and now the grave is pulling me in
I'm haunted by you

Give my blood for a taste of heaven
But now it's bleeding me dry
I see the light in a fleeting moment
Till it blinds my eyes

Oh, fated
I keep giving you up until I feel it crawling under my skin
I'm haunted by you lately
Oh, it's never enough and now the grave is pulling me in
I'm haunted by you

So, hit me again
I'm haunted by you lately
So, hit me again

Slowly pull me into your dark cathedral
Promise that you'll hold me
Go on and take my hand and lead me up to the altar
Whisper words so sweetly
The moon is shining bright and the candle's burning
Familiar thief in the night
And then you draw the knife and dance with me softly, darling
Pierce it through my heart

Oh, fated
I keep giving you up until I feel it crawling under my skin
I'm haunted by you lately
Oh, it's never enough and now the grave is pulling me in
I'm haunted by you

So, hit me again
I'm haunted by you lately
So, hit me again
I'm haunted by you
So, hit me again
I'm haunted by you lately
So, hit me again
I'm haunted by you
