

## January

Telenova

Took a minute to imagine home without you in it  
My first thoughts and first steps, I used to imitate the words  
you said  
No flashing lights, and dark clouds, pulled up in your driveway  
As sun shines in your bed, oh, you were my first friend

Hold on for me, 'cause I'll be there in January, oh  
No, don't you leave, I've lost the words that don't come easy  
But all the songs that you used to love  
And all the stars that shine above you  
Say the words that I can't say

Sometimes at full moon, we used to put a place in your living r  
oom  
As birds fly in your skies  
The guardian angels in my eyes  
If they fix you up, will you remember  
Your first thoughts and first steps  
Of teaching my name when you forget

Hold on for me, 'cause I'll be there in January, oh  
No, don't you leave, I've lost the words that don't come easy  
But all the songs that you used to love  
And all the stars that shine above you  
Say the words that I can't say

I see [?] the plan is forming  
And one day will be [?] the angels are calling

Hold on for me, 'cause I'll be there in January, oh  
No, don't you leave, I've lost the words that don't come easy (  
Don't come easy)  
But all the songs you used to love (Don't come easy)  
And all the starts that shine above you  
Say the words that I can't say (That I can't say)  
Say the words that I can't say
