

# Silver Lining

Telenova

I've got your number in my pocket  
Said I'd call you up before I pay the cheque  
I've got your memory in my suitcase  
Said I'd leave it waiting by the desk

Leave me hanging by a thread  
Wrapped around your fingertips  
Tremble when I hold my breath  
Spinning my own spider web  
Ooh  
The silver lining

Fly above the endless highways  
The city shrinks below  
I could crush you like a bug  
But why destroy the one that I love?  
Fly above the endless highways  
The city shrinks below  
Hold the world between my fingertips  
Will I ever let you go?

Call my name over the speaker  
I thought that I could leave without regret  
I bought a ticket to the theatre  
Flew halfway across the world for my yearly cigarette

Leave me hanging by a thread  
Wrapped around your fingertips  
Tremble when I hold my breath  
Spinning my own spider web  
How can I deny the silver lining?

Fly above the endless highways  
The city shrinks below  
I could crush you like a bug  
But why destroy the one that I love?  
Fly above the endless highways  
The city shrinks below  
Hold the world between my fingertips  
Will I ever let you go?
