

# Tranquilize

Telenova

The shadow in the night  
Poseidon's on the water  
Don't know exactly what I'll sacrifice  
To get just what I want

Why does nobody save me?  
Bring me a cure  
Hypnotize me  
The sirens call me away  
I give in (I give in)

Starry-eyed, but my soul is tired  
Down, falling deep into slumber  
Now the siren song will haunt me forever after

Tranquilize  
Oh, you tranquilize me

The circle dilates in the hollow, hollow, hollow of my eyes  
The circle dilates, and I wallow, wallow, wallow in the light

Why does nobody save me?  
Bring me a cure  
Hypnotize me  
The sirens call me away  
I give in (I give in)

Starry-eyed, but my soul is tired  
Down, falling deep into slumber  
Now the siren song will haunt me forever after

Tranquilize  
Oh, you tranquilize me  
Tranquilize  
Oh, you tranquilize me

Pacify and satisfy me  
I raise my white flag  
I'm never going back to the water  
Hold me under 'til I drown and die  
So cute

Starry-eyed, but my soul is tired  
Down, falling deep into slumber  
Now the siren song will haunt me forever after

Tranquilize  
Oh, you tranquilize me  
Tranquilize  
Oh, you tranquilize me
