Brainwash

Telex

I was a brain
An egghead
Overly-sane
I was half-dead
Then I saw you in Paris
And I said, "My God, I've just been brainwashed..."

When I was smart
And clever
Read about Sartre
But you're better
When I hold you close to me
I lose all my memories, I'm happy

Brainwashed, brainwashed, love did this to me

Now I'm a person

I've started cursin'

Then you met that
Professor
He was a real
Tough tester

You said goodbye
You'd call me
He was a real
Svengali
I lost you but you'll come back
I'll enrol in his course, "How to Brainwash"

Brainwashed, brainwashed, love did this to me

Now I'm a person
I've started cursin'
