

L'Amour Toujours

Telex

One lonely night
Know you only I
Two, you and me
Could be happy
Three, me and you
What will I do?
Four, four and more
Now I'm waiting for

L'amour toujours, toujours l'amour
L'amour, l'amour, toujours l'amour

You without pain
If there is a way
I feel that strain
Surrounds like the rain

Harmony around
Shape, colour, and sound

Believe it, I don't

L'amour toujours, toujours l'amour
L'amour, l'amour, toujours l'amour

In a cliché
More than words can say
Life, peace, and love
Heard when I laugh
Harmony promised
The good times you missed
Just like in music

L'amour toujours, toujours l'amour
L'amour, l'amour, toujours l'amour
