

# Codebreaker

Temperance

Codebreaker - code code code  
Codebreaker - code code code

I'm trapped inside a machine  
That controls all the universe  
And every step that I take  
Is a creation inside my brain  
It seems like everyone else  
Is made of numbers and complex codes  
And that the earth that we walk  
Is just another formula

Open your eyes  
And unplug your lifeless wires  
Open your eyes and be free

I am the codebreaker, man  
Who truly understands  
A sparkle in my eye  
To fight with my mind  
I'm the codebreaker one  
To save what is gone  
For all that is lost  
No matter the cost  
I say it's time to be alone  
And fight this battle on my own  
This call is just mine  
First one standing in this line

Codebreaker - code code code  
Codebreaker - code code code  
Codebreaker - code code code  
Codebreaker

If only I could escape  
From this reality made for fools  
And run away from the lie  
That is surrounding a silent world  
I'm just like everyone else  
But I'm aware that there's something more  
With all my strength  
I'll override all of their firewalls

Open your eyes  
And unplug your lifeless wires  
Open your eyes and be free

I am the codebreaker, man  
Who truly understands  
A sparkle in my eye  
To fight with my mind  
I'm the codebreaker one  
To save what is gone  
For all that is lost  
No matter the cost  
I say it's time to be alone  
And fight this battle on my own

This call is just mine  
First one standing in this line  
Freedom and life  
Before running out of time

I guess it's time to say goodbye  
I'll travel through infinity  
Against the laws of space and time  
I'll ride the stars, to something new  
Too many hours, too many cries  
I've given up too many times  
Now I'll design a new latitude  
To define a brand new code

Codebreaker - code code code  
Codebreaker - code code code

I am the codebreaker man  
Who truly understands  
A sparkle in my eye  
To fight with my mind  
I'm the codebreaker one  
To save what is gone  
For all that is lost

I am the codebreaker, man  
Who truly understands  
A sparkle in my eye  
To fight with my mind  
I'm the codebreaker one  
To save what is gone  
For all that is lost  
No matter the cost  
I say it's time to be alone  
And fight this battle on my own  
This call is just mine  
First one standing in this line  
Freedom and life  
Before running out of time

Open your eyes  
And unplug your lifeless wires  
Open your eyes and be free

Codebreaker - code code code  
Codebreaker - code code code  
Codebreaker - code code code  
Codebreaker
