

## Here & Now

## Temperance

The clock is ticking far too fast for you and me tonight  
In this labyrinth for sure we're gonna lose our minds  
Hold me tight, the dawn is near  
And my tears, they are for real  
And there is nothing left to say

A stream of passion  
One life, so short  
Enjoy every moment  
Like it's your last one  
Time never turns back

Choose the direction  
Don't look behind  
Always take action  
Search for perfection

Why do we always forget to enjoy the time we have  
And we keep on worrying about silly things?  
So we waste it on and on  
Then we realize that thoughts  
Do not matter anymore at all for us

Every second, every breath  
Are like gold, so be aware  
They are the most precious gifts  
(Every second, every breath)

And I don't wanna miss a word nor any glimpse tonight  
And I assure that I will keep them all locked in my mind  
Here and now, hold me dear  
Let us taste this life for real  
'Cause tomorrow's near and so I will not fall asleep

And with every breath you take  
You're getting stronger  
But also older

I admit I cannot help worrying 'cause the sun is here  
And you are leaving  
It is useless but I still fight against the coming dawn  
Trying to hide with a curtain all the light  
Every second, every breath are like gold, so don't be scared

And I don't wanna miss a word nor any glimpse tonight  
And I assure that I will keep them all locked in my mind  
Here and now, hold me dear  
Let us taste this life for real  
'Cause tomorrow's near and so I will not fall asleep

A stream of passion  
One life, so short  
Enjoy every moment  
Like it's your last one  
Time never turns back

And I don't wanna miss a word nor any glimpse tonight

And I assure that I will keep them all locked in my mind  
Here and now, hold me dear  
Let us taste this life for real  
'Cause tomorrow's near and so I will not fall asleep

And I don't care if I'll be given one last night to live  
For as long as you're here I don't wanna fall asleep  
I don't wanna fall asleep  
I don't wanna fall asleep
