

# Let's Get Started

## Temperance

Let's get started, let's get started now!  
Let's get started now!  
Oh yeah, let's get started now!

Oh, after ages spent too far from what is mine  
I'm ready to get back in the game  
To reach a new beginning so  
Let's get started, let's get started now!  
Though it seemed to be like waiting for forever  
Like I've been doing nothing at all  
The journey isn't over  
Let's get started, let's get started!

Just keep on following your dreams, you're still in time  
Sweat and tears will make 'em real, you'll feel alive

I feel a fire here, burning inside of me  
Lettin' adrenaline give me the energy  
Time to get up! Time to be free!  
I will chase a new reality  
Ready to go and live a new eternity

Let's get started, let's get started!

Every battle has a winner and a loser  
Every tale has a good and a bad  
We fought against the darkness so  
Let's get started, let's get started now!  
And even if you never reach the bottom  
You shouldn't ever lower your gaze:  
The journey's never over  
Let's get started, let's get started!

Just keep on following your dreams, you're still in time  
Sweat and tears will make 'em real, you'll feel alive

I feel a fire here, burning inside of me  
Lettin' adrenaline give me the energy  
Time to get up! Time to be free!  
I will chase a new reality  
Ready to go and live a new eternity

Let's get started, let's get started!

I will forget bout the time I've wasted  
I'll make a move, I'll find a way  
To redefine who I am  
Start all over again  
Releasing my brakes  
Whatever it takes

If everything around is darkness  
Light a candle to survive

I feel a fire here, burning inside of me  
Lettin' adrenaline give me the energy  
Time to get up! Time to be free!

I will chase a new reality  
Ready to go and live a new eternity

I feel a fire here, burning inside of me  
Lettin' adrenaline give me the energy  
Time to get up! Time to be free!  
I will chase a new reality  
Ready to go and live a new eternity
