

Limitless

Temperance

Why are you acting like this?
You don't know how to live
I don't like your behavior
The way that you look like
Can't you see you are wrong
In everything you do?
So follow my example
And you will be right

Fight, don't kill your own mind
You know you are not alone
And keep your flame alive

I just don't care about you
Why do you care about me?
You seem too blind to see
But you're judging, mean
A parallel universe
A two dimensional world
Sooner or later we will collide

But I will not change my mind
And the world will see
What I really am...

Can't you see?
Life is awaiting you
Always try to do your best
Don't you worry about the rest
We are free
As long as we don't care
Feel your power limitless
Be yourself not someone else

You don't understand
Always mistaken - you are so wrong

No, I will not listen
You will not bring me down
Don't tell me what is right, no
Because there is no rule
You are devaluating me
Only to feel strong
You cannot defeat me
'Cause I am aware

Oh, I'm aware
And I will walk on my own way
Without looking back and with no regret

I just don't listen to you
Why are you shouting at me?
Words that sounds useless and weak
And you're freaking out?
A parallel universe
We are not converging at all
And I am spinning at the speed of light

Can't you see?
Life is awaiting you
Always try to do your best
Don't you worry about the rest
We are free
As long as we don't care
Feel your power limitless
Be yourself not someone else

I just don't care about you
Why do you care about me?
You seem too blind to see
But you're judging, mean
A parallel universe
A two dimensional world
Sooner or later we will collide
I just don't listen to you
Why are you shouting at me?
Words that sound useless and weak
And you're freaking out?
But I will not change my mind

We are free

Can't you see?
Life is awaiting you
Always try to do your best
Don't you worry about the rest
We are free
As long as we don't care
Feel your power limitless
Be yourself not someone else!
