

Lost In The Christmas Dream

Temperance

After the night is fading away
Just for a Christmas dream
It came from the north
Where it's full of snow
That's for the entire time

This is Christmas
It's the moment
When the people cry out with a feeling
This is Christmas
Yes my honey
What will you find under the tree

Lost in a Christmas dream
Into a world of fire
Looking down at Christmas
As rain to the ground
Welcome to winter season
Lost in a Christmas dream
We have one last desire
You must never be too grown up to search
The skies on Christmas eve

This is Christmas
It's the moment
When the people cry out with a feeling
This is Christmas
Yes my honey
What will you find under the tree

This is Christmas
It's a feeling
Maybe Christmas doesn't come from a store
This is Christmas
Yes the moment
Perhaps means just a little bit more

Lost in a Christmas dream
Into a world of fire
Looking down at Christmas
As rain to the ground
Welcome to winter season
Lost in a Christmas dream
We have one last desire
You must never be too grown up to search
The skies on Christmas eve
