Mr. White

Temperance

Desert, hot weather and sand in my lungs
Something's exploding in our old van
Bullets and gangsters, my new company
Day after day the game gets more dangerous

What the hell's going on? (Dangerous)
This person's not me anymore (dangerous)
Things that once felt so wrong to me
Suddenly turned to be my own life

Mr. White is not here
Look for Heisenberg
He has a secret he cannot tell
(Mr. White)
Mr. White is away, cooking crystal meth
Because he is the one who knows
(Mr. White)
Mr. White has invented a new formula
He keeps on mixing chemicals
(Mr. White)
There's a kind of magic in this crazy lab
Every blue crystal's so damn pure

Mr. White
Mr. White
Mr. White
Mr. White

All of my family's looking for me
I'm not at work but I'm hiding down here
They keep on wondering why I'm so strange
I fake a smile and show them my bright side

What the hell's going on? (My bright side)
This person's not me anymore (my bright side)
Things that once felt so wrong to me
Suddenly turned to be my own life

Mr. White is not here
Look for Heisenberg
He has a secret he cannot tell
(Mr. White)
Mr. White is away, cooking crystal meth
Because he is the one who knows
(Mr. White)
Mr. White has invented a new formula
He keeps on mixing chemicals
(Mr. White)
There's a kind of magic in this crazy lab
Every blue crystal's so damn pure

Mr. White
Mr. White
Mr. White
Mr. White

And maybe in the end

They are gonna find me
But it's a matter of life
Show your strength now or die

I'm exploiting my brain
This time I feel so brave
So forget the shy man
And meet Heisenberg

Mr. White is not here
Look for Heisenberg
He has a secret he cannot tell
(Mr. White)
Mr. White is away, cooking crystal meth
Because he is the one who knows
(Mr. White)
Mr. White has invented a new formula
He keeps on mixing chemicals
(Mr. White)
There's a kind of magic in this crazy lab
Every blue crystal's so damn pure

Mr. White
(Mr. White is not here)
(Look for Heisenberg)
Mr. White
Mr. White
(Mr. White is away, cooking crystal meth)
Mr. White

Mr. White has invented a new formula
