Relentlessly

Temperance

Everywhere on this earth
Everybody knows, everybody talks
Planet spin, there's no end
As the life goes on in its crazy ways
Don't you think? Don't you know?
You were not the first, you won't be the last
So it's time to realize
Time is floating fast, you can't hesitate

Starting a new journey, searching for the theory
Hope is just a keyword to open all your closed doors

I am chasing my moment
Looking for any way to live
It's not as easy as it seems...

Haunted by my old memories
The world's changing relentlessly
Empty words will erase the essence of life

Every drop like a wave
Is overwhelming me with a load of truth
When you see you'll believe
There is something more than a futile life
Try to look everyday
For a brand new start, for a new routine
So it's time to realize
Time is running fast, you can't hesitate

Starting a new journey, searching for the theory
Hope is just a keyword to open all your closed doors

I am chasing my moment
Looking for any way to live
It's not as easy as it seems...

Haunted by my old memories
The world's changing relentlessly
Empty words will erase the essence of life

There is not time to stop and think
Everything's changing faster than me

It's not a crime to come to life
After a long and misleading dream...

I am chasing my moment
Looking for any way to live
It's not as easy as it seems...

Haunted by my old memories
The world's changing relentlessly
Empty words will erase the essence of life
