

Save Me

Temperance

I make mistakes with every step I take
Feeling free while I feel unsafe
So please tell me how to behave
I take a breath just to collect myself

Can't help these feelings of gloom and doom
It is so, don't know what to do
The whole world's spinning without me
Everything's out of control

Crawling and falling (crawling and falling)
Drowning in doubt

Save me from the dark
Gather in your arms my own desperate heart
Save me from the past
Don't let it overwhelm me
Save me from the dark
Walking all alone I have broken my own heart
Save me from the past
And try to melt away my fears

Away my fears
Away my fears
Away my fears
Away my fears

I run undressed and I'm feeling well
That's for sure: I have lost my head
Talk to strangers on empty roads
Is it danger that I'm looking for?
Waken up until late night
Cannot stand any ray of light
I roll about, like there's no escape
Feels like home in this craziness

Save me

Save me from the dark
Gather in your arms my own desperate heart
Save me from the past
Don't let it overwhelm me
Save me from the dark
Walking all alone I have broken my own heart
Save me from the past
And try to melt away my fears

There is no regret while I'm walking away
Nothing is forever but my mistakes
Maybe I will calm down and find my own way
In this endless chaos... dwelling my mind

Can you save me?
Can you help me?

Can you save me?
Can you help me?

Just come and take me away from shadows
Just run to me, bring me to life
In this so challenging condition
I need someone to enlighten me

Save me from the dark
Gather in your arms my own desperate heart
Save me from the past
Don't let it overwhelm me
Save me from the dark
Walking all alone I have broken my own heart
Save me from the past
And try to melt away my fears

Crawling and falling
Drowning in doubt
