

Jopping

Tempest

'Cause when we jumpin', it's poppin', we joppin'
Joppin'
Joppin'
Joppin'

You know how we get down (Joppin')
How we get down (Joppin')
How we get down
'Cause when we jumpin' and poppin', we joppin'

Step on the floor (Start a riot)
Where the competition? Man, it's lookin' one-sided
Up like a 747, we the flyest
A lifestyle, you should try it
So sijakae, make it last
Front to back, yeah, yeah (Give me that, give me that, give me that)
The roof's on fire, let it burn to an ash
We gon' keep it joppin', tell the DJ, "Bring it back now"

Nara bwa like a paraglide
Natana in a pair of slides
Tteonaja out to paradise
Geonbaehae to a better life
Gotta move, watch the money monsoon (Ching-ching)
Make the crowd go wild in a small room (Yeah)
Let me see you put it all on like a costume
Eodikkaji beonjyeo galji molla

We love to move it
Keep it going, don't stop
It's in your nature
Malhae, girl, what you want
Chumeul chwo bwa, we go on and on
Champagne life, that's all you want
Don't stop, letting it go
'Cause we got that glow
