

I've got
I've got the picture and the detail
Outside
Under within the sights
We stand
We land upon the parallelogram
On the sand of another land
We appear and call

Tonight
The bridge is growing to the other side
On cue
Over beneath the sun
You land
On pebbles close to never neverland
In the the palms of another land
Reappear and recall

The waves are waving slowly
The sand is standing lightly
Ahhhhhhhhhhh

I wanna know that certainty is in my life
I wanna know that certainty is through the night
I wanna know that certainty is in my life
It's a lonely island world we find

You've got
You've got the mixture and the thesis
In hand
Under beneath your stare
We tend
We mend the scenes of ever everland
On the sand of another land
We appear tall

The waves are waving slowly
The skiving sky is standing lightly
Now

I wanna know that certainty is in my life
I wanna know that certainty is through the night
I wanna know that certainty is in my life
It's a lonely island world we find
