

## Inner Space

## Temples

I've been traveling inwards  
I've been walking around inside a memory  
Lost in reverie

I've been following time-worn tracks  
Balancing the scales of my history  
But still... it's a mystery

Half-remembered ways  
And half-imagined days

In search of a long-forgotten time  
Behind the surface of the mind  
To run through inner space  
For a sense of somewhere  
Beyond a sense of place

I've been treading water  
I've been diving deeper into a fantasy  
Lost in a memory

Time to bring a memento back  
A fossil of the mind  
In an amber glow  
Set in time to fill the space before tomorrow

The truth be told  
Yesterday's future is already old  
Inner space  
Inner space

In search of a long-forgotten time  
Behind the surface of the mind  
To run through inner space  
For a sense of somewhere  
Beyond a sense of place
