At Peace

TEMPOREX

I fall asleep when I'm around you cos I'm at peace
Don't ask me why I'm tired I'm just real comfy
(Cos you have a) Voice as sweet as sugar unwillingly so soft
I travel on cars and trains just to hear you talk

Your voice just hits me softly when I'm inside of your car
And every time we kiss I am falling in love
Every time I look up I see pairs of doves
