

Bad Pin

TEMPOREX

Monday comes
Sunday's over
I'm still up
Rollin over
You can't stop
Telling me why
I'm so bad
I think I wanna die

Can you see it
I don't really need nobody else
Can you see it
I don't really need nobody else
Can you see it
I don't really need nobody else
Can you see it
I don't really need nobody else

You can walk
I won't fight it
If you see me I'll be hiding
If you stop, you can ride it
She's so hot, burn me like lighting
(Burn me like lightning)

What am I supposed to say
When you walk away and you're unhappy
How am I supposed to sleep
When I know I have ruined a moment
I don't really know what else to say, baby

You'll never know my love for you
Baby, you'll never know my love for you
Baby, you'll never know my love for you
Baby, you'll never know my love for you

Can you see it
I don't really need nobody else
Can you see it
I don't really need nobody else

Che-check it out
(Bowling)

Throwing the ball in
I'll see you down the lane
If I lose it all in a minute
I'll love you just the same
I think I'm the bad pin
At least you feel that way
