TEMPOREX

Haven't seen you since the bitterest time
I'll come down with an easy bake oven next time
Like a cake that an egg might bind
You tell me that you want it better

Maybe I don't know how it's supposed to be (When you're in love)
Never been in love before now it's right in front of me

Love love love
I'm in love
Love love
Love love love
Love love love
I'm in love
I'm in love baby
Don't you ever think nothing else
Yeah ooh
