

Care

TEMPOREX

When I mess up I can't help but smile
Why don't you stay for a while?
I got a few things to say
But you don't care anyway
(You just don't care)
I must be talking to a wall
(A Wall)
Cause girl, your face
(Your face)
Says it all

You just don't care
I wish you cared
(I wish you cared)
Why don't you care
With me
Tonight?

When?
