

Don't Care

TEMPOREX

Baby, I hope you know
You really help my flowers grow
Daisies and buttercups
Sprout right up when you show up
And now that you're around again
We have a little time to spend
Alone oh oh oh (I sound like shit)
Woah, woah oh, alone

So if you're not my girl, don't text me I don't even care
And if you want to chat, I really I have nothin' to share
If you tryna reach me, I just won't pick up my phone
'Cause I just want to spend some time alone with her
(Uh, unless you're someone cool)

I don't care (don't care)
Please don't text me anymore (no more)
I don't care (I don't care)
Please don't message me anymore (no more)
I don't care (don't care)
Please don't text me anymore (I don't really care)
I don't care (I don't care)
Please don't message me anymore (I don't really care)

(I still care I just don't like talking about trivial shit, it's annoying)
(Small talk is my fucking enemy)
