

## Avoid Things

Tems

In the morning when you're not with me  
I feel you in the depths of mind, I found it in deep  
Coming through is all I ever want to do  
I fall in the steps of human beings  
And it's all on you  
Now it's onto you, now it's onto you  
Now it's onto you, now it's onto you  
Now it's onto you, now it's onto you  
Now it's on

I try to avoid things  
Avoid things  
But there's no one, this is madness  
Avoid things  
I try to resolve things  
Involve you  
But you don't want to be sorry

Page me on the beeper, babe  
I need a request, babe  
I need reason to wait while you relaxing  
Take me away today, I'm on a wave today  
I roll my waist, and I craze, while my mind's awake  
And it's a migraine to play your mind games  
You're like a cold place, don't need a cold place  
And if you ain't mine then we just waste time  
Until new day

I try to avoid things  
Avoid things  
But there's no one, this is madness  
Avoid things  
I try to resolve things  
Involve you  
But you don't want to be sorry (Sorry, oh-oh, yeah-yeah, yeah)

Badman wanna do me, bad man wanna ride  
Badman wanna play mind games on me  
Badman wanna craze, save me from this  
Save me from, save me from  
Badman wanna do me, bad man wanna ride  
Badman wanna play mind games on me  
Badman wanna craze, save me from this  
Save me from, save me from

I try to avoid things  
Avoid things  
But there's no one, this is madness  
Avoid things  
I try to resolve things  
Involve you  
But you don't want to be sorry  
Eh, yeah, yeah-yeah, yeah, yeah
