

# Forever

Tems

I'm a hot stepper  
Storming through the weather, weather  
High pressure (Pressure)  
Moving like a dancer, dancer, challenger  
And still I do it better  
The feeling is forever

And everytime I'm up to something new  
Got you feeling black and blue  
Got you checking for the news  
Breaking through  
Now you want to take it out on me  
Don't you want to set me free, don't you want to let me breathe

It's the desperation for me  
From you  
Oohh baby  
You know it's the desperation, for me  
For me darling

I want the secret, to your loving  
Covered in diamonds in your passion  
I love the way you, looking at me  
Baby I want, want you begging

It's the desperation, for me  
From you  
Oohh baby  
You know it's the desperation for me  
For me darling

(It's the desperation)

I got it, you want it  
I could be your  
I got it, you want it  
I won't stay down  
I got it, you want it, could be yours  
I got it, you want it, I can't stay

I'm not waiting for you ooo ooo ooo (I can't stay)  
I'm not waiting for you ooo ooo ooo (I can't stay)  
I'm not waiting for you ooo ooo ooo (I can't stay)  
I'm not waiting for you ooo ooo ooo (I can't stay)

Let me breathe  
Let me breathe  
Let me breathe  
Let me breathe
