Yeah... Hmm

Finally, I'm not running back  
I'm turning up, turning up and on  
And I'm coming down  
I be coming for your mind  
Running deep, I be fighting for your time

Right, I know it's fine, I know it's good  
Damn, I know you're mine, you know it too  
Fine, I might be wrong, but I don't care  
I just dey my own

Just been on there, just been on there waiting  
For you to come here and be under rating  
Ride my wave, ride my wave  
Would you ride my mind  
Cuz I've been giving you my time

And I make Ice T  
And I make it with your lemons yeah  
Flaws and all I be the one you run to  
And I'll be for you and no one else  
Tell me what you want  
I be going in, fina-finally  
And I make Ice T  
And I make it with your lemons yeah, yeah

I'm on the chase  
I make you break when I craze  
Imma light up the place  
Let me spice up your plate  
Set it up, take a squeeze  
Pour it up and make it freeze  
Make the tea  
The vibe is made, the vibe is made

Here's my piece of mind, Imma give you one more try yes  
If you need to ride, then you met the leading vibe yes
