

## Me & U

## Tems

This is my decision, decision  
This is my decision  
I don't think you listen, you listen  
I don't think you listen

For me to come out  
It must mean I'm at the door  
It must mean I'm not the same  
It must mean I'm on your case

For me to come out  
It means that I'm at the door  
I want to show you my world

Give me one break, I need faith  
Faith to believe you  
Faith to receive you

Give me something I'm lacking  
I don't need nothing  
You are my everything

Only me and you  
Only me and you  
Only me and you  
Only me and you  
Only me, only you  
Only me and you  
Only me and you  
Only me and you  
Only me, only you

Make me your matter  
Make me your matter  
Make me your matter

Show me your substance  
Make me your person  
Make me your person

Give me one break, I need faith  
Faith to believe you  
Faith to receive you

Give me something I'm lacking  
I don't need nothing  
You are my everything

Only me and you  
Only me and you  
Only me and you  
Only me and you  
Only me, only you  
Only me and you  
Only me and you  
Only me and you  
Only me and you

All I want, only me and you  
All I want, only me and you  
All I want, only me and you  
All I want, only me and you

Only me and you  
Me and you, only me and you  
Only me and you  
Only me and, me and you, and you  
Only me and you  
Only me and you  
Only me and, me and you, and you  
Only me and you  
Only me and you  
Only me and, me and you, and you  
Only me and you  
Only me and you  
Only me and you
