

# You In My Face

Tems

Oohhhhho  
You in my face  
You in my face  
Oohhhhho  
You in my face  
You in my face  
You in my face

Girl in the mirror looking at my skin  
You remembered me  
It's a night of inspiring things  
How does it feel to you?

Hold on to the end of the night  
It's too real for me  
You with my eyes  
How could I forget  
You always took me back  
You never left  
You in my face  
How could I forget?  
It's you!

Oohhhhho  
You in my face  
You in my face  
Oohhhhho  
You in my face  
You in my face  
You in my face

We will go beyond impossible  
They might not see it now  
Love will conquer every storm  
Every storm  
We will go beyond impossible  
When the darkness comes before me  
Love will conquer every storm

Oohhhhho  
You in my face  
You in my face  
Oohhhhho  
You in my face  
You in my face  
You in my face

When are you coming again  
My heart  
My heart  
When are you coming again  
My heart  
My heart
