

Sarcasm Decoder

Ten Foot Pole

Can someone help me with a brand new app?
I'm lost in conversations, I can't tell exactly
What people mean by the words they say
I can't judge the tone, I just can't relate

Your soothing voice can prop me back up
Then knock me down again
It's just my bad luck
You lift me with kind words shoved in my ear
Then drop me, drop me, drop me
When I realize you're not sincere

I can't see, no, I can't see
The meaning of the words you're telling me
So I need a sarcasm decoder (a sarcasm decoder)
I can't see, no I can't see
The meaning of the words you're telling me
So I need, that's what I need
A sarcasm decoder (a sarcasm decoder)
A sarcasm decoder (a sarcasm decoder)
Decoder, decoder, decoder (a sarcasm decoder)

I have requests for technology
To accurately quantify sincerity
So when people talk I might have a clue
To know what to say, know what to do

Your soothing voice can prop me back up
Then knock me down again
It's just my bad luck
You lift me with kind words shoved in my ear
Then drop me, drop me, drop me
When I realize you're not sincere

I can't see, no, I can't see
The meaning of the words you're telling me
So I need a sarcasm decoder (a sarcasm decoder)
I can't see, no I can't see
The meaning of the words you're telling me
So I need, that's what I need
A sarcasm decoder (a sarcasm decoder)
A sarcasm decoder (a sarcasm decoder)
Decoder, decoder, decoder (a sarcasm decoder)

(A sarcasm decoder
A sarcasm decoder
A sarcasm decoder)
