First And Foremost

Ten Second Epic

What part of you, What part of you changes?
Ignite the spark, It's for two.
My flame still burns, Do you?

What part of you, What part of you decides this?
Just quit the games and mean it,
but make sure it's how you feel.

If this is love for the first time,
If this is love for the first time.
Then make it be the last time.

Baby wont you choose one or the other,
Choose one or the other, choose one or the other.
Or baby you might lose me to another,
Lose me to another, lose me to another.

What part of you, What part of you changes?
You say I'm gone when I'm not near,
I say you're gone when you're here.

What part of you, What part of you feels this?
We used to be worth fighting for,
Keep it that way or leave it.

If this is love for the first time,
If this is love for the first time.
Then make it be the last time.

Baby wont you choose one or the other,
Choose one or the other, choose one or the other.
Or baby you might lose me to another,
Lose me to another, lose me to another.

Don't stop until you know, until you know, it's true.
Don't stop until you know, until you know, it's...
Don't stop until you know, until you know, it's true
Don't stop until you know, until you know, it's...

Don't start what you'll never finish
You sold me short, But you'll never admit it.
Don't start what you'll never finish
You sold me short, But you'll never admit it.

Baby wont you choose one or the other,
Choose one or the other, choose one or the other.
Or baby you might lose me to another,
Lose me to another, lose me to another.

If this is love for the first time,
If this is love for the first time.
Then make it be the last time.
