

## Whenever I Fall

Ten Sharp

Darling you know when you're near I just wanna hold you  
You're the sweetest thing that I've ever seen  
And that I want you to know  
Darling you know when you're near I just wanna tell you  
You're the biggest star on my screen  
And that I want you to know

Stay with me honey  
Play with me girl  
Love me like you never loved me before

Whenever I fall  
It will be  
Into in your arms again

Darling I just wanna know you  
You can knock me down with a feather baby  
And bring me round with your smile  
Darling you know when you're near I just wanna show you  
I keep bending my love like a tree in a storm  
And go the extra mile  
Stay with me honey  
Play with me girl  
Love me like you never loved me before

Whenever I fall  
It will be  
Into in your arms again

You may shout  
You may fight  
You may push me aside I'll be strong  
You may sigh  
You may bite  
Do whatever you like I belong to you

Whenever I fall  
It will be  
Into in your arms again
