

Counting Down

Ten Tonnes

Waitin'
Waitin'

I could be your little
Bit of magic, baby
Meet me in the middle
When you turn out the lights

'Cause every time you call my name
You're out of here
When every moment comes too late
That don't matter to me

Yes, I'm counting down the minutes till I see you next
5, 4, 3, 2, 1
And your friends say that I'm lazy and I always forget
But you know they got it all wrong
Yes, I'm counting down the minutes till I see you next
5, 4, 3, 2, 1
And your friends say that I'm lazy and I always forget
But you know they got it all wrong

Baby, be my sparkler
Lightin' up the darkness
I can feel it risin', oh
Stare at the calendar, wish for a meteor
'Cause I can't wait much longer

'Cause every time you call my name
You're out of reach
And every moment comes too late
That don't matter to me

Yes, I'm counting down the minutes till I see you next
5, 4, 3, 2, 1
And your friends say that I'm lazy and I always forget
But you know they got it all wrong
Yes, I'm counting down the minutes till I see you next
5, 4, 3, 2, 1
And your friends say that I'm lazy and I always forget
But you know they got it all wrong

(5, 4, 3, 2)
(5, 4, 3, 2)

I ain't got all the time in the world
But I got just enough for my girl
Oh-oh

Yes, I'm counting down the minutes till I see you next
5, 4, 3, 2, 1
And your friends say that I'm lazy and I always forget
But you know they got it all wrong
Yes, I'm counting down the minutes till I see you next
5, 4, 3, 2, 1
And your friends say that I'm lazy and I always forget
But you know they got it all wrong

Yes, I'm counting down, counting down
Yes, I'm counting down, counting down
Oh
