

# Everything You Got

Ten Tonnes

The feeling lingers on and then it drops  
I thought I had it clear but I missed my shot  
Tripping backwards but I catch myself  
Take another record down from off the shelf

No, I don't wanna be a loser anymore  
I don't wanna be the one you love to ignore  
Ah yeah

So come on, come on, come on  
Hit me with your best shot  
Oh come on, come on, come on  
Give me everything you've got

We're both still falling, stopping and starting  
Nothing even matters 'cause tomorrow's not coming  
Shake it and roll it, twist it and lock it  
Come on, baby, make me feel like no one else matters  
Oh come on, come on, come on  
Give me everything you've got

Turn the light out and see what you can find  
I crossed your name out but left it underlined

No, I don't wanna be a loser anymore  
I don't wanna be the one you love to ignore  
Ah yeah

So come on, come on, come on  
Hit me with your best shot  
Oh come on, come on, come on  
Give me everything you've got

We're both still falling, stopping and starting  
Nothing even matters 'cause tomorrow's not coming  
Shake it and roll it, twist it and lock it  
Come on, baby, make me feel like no one else matters  
Oh come on, come on, come on  
Give me everything you've got

Ah ah...  
Ooh...  
Ah ah...  
Ooh...

I know you love to dance, so let's go dance  
Wanna feel something real, well, it's all in your hands  
I know you love to dance, so let's go dance  
Wanna feel something real, well, it's all in your hands

So come on, come on, come on  
Hit me with your best shot  
Oh come on, come on, come on  
Give me everything you've got

I know you love to dance, so let's go dance  
Wanna feel something real, well, it's all in your hands

I know you love to dance, so let's go dance  
Wanna feel something real, well, it's all in your hands  
Oh come on, come on, come on  
Give me everything you've got
